Psychology 110

Directions: Try to find answers to the following questions by asking others in the room. You may not answer questions yourself. In the space provided, write down the name of the person who answered the question and their response. The person must also initial the space! You may only use each person one time. **The goal is to complete the entire board. GOOD LUCK!**

Someone who knows what MMPI stands for. Write down the answer.	Someone who plays a musical instrument. What instrument?	Someone who is a former smoker.	Someone who knows what ADHD stands for. Write down what it stands for.
Someone who comes from a family with four or more children. Ask him/her for one advantage and one disadvantage of that situation.	Someone who speaks at least one language, in addition to English, fluently. Write down the language(s).	Someone who knows a funny joke that is not dirty or offensive. Write it down.	Someone who knows someone that is currently involved in the situation in the Mideast (Iraq or Afghanistan).
Someone who knows who invented scuba diving. Write down the name of the inventor.	Someone who knows what a secondary reinforcer is. Write down an example.
